Consumer Information System
(MHD-CIS)
2005 Data Dictionary**

VERSION 5.1

Effective Date: December 2, 2005

This Data Dictionary documents transactions submitted by the Regional Support Networks to the Mental Health Division's Consumer Information System.

From the fall of 2002 through spring of 2003, the Information System Data Evaluation Committee (ISDEC) formed a workgroup to address the MHD-CIS Data Dictionary changes required to become compliant with the Health Insurance Portability and Accountability Act (HIPAA) of 1996. A similar workgroup was formed in the fall of 2003 to enhance data consistency statewide and to support future actuarial studies. The Chairperson of the Performance Indicator (PI) workgroup participated in or reviewed the small workgroup's efforts to ensure PI concerns or requirements were met as well. In the spring of 2004 version 3.2 was republished at ISDEC request to provide more clarification and documentation related to HIPAA and the transactions used to apply HIPAA updates. In the fall of 2004 the ISDEC proposed further clarification changes that are reflected in this publication. Version 5.0 represents a new baseline for the MHD-CIS Data Dictionary. This publication does not change contract requirements.

SUMMARY OF MAJOR CHANGES

Transaction 076.01 Community Hospital Authorization: Phased out of service. Inpatient data to be obtained from MAA reporting.

Transaction 075.01 Community Hospital Payment Summary: Phased out of service. RSNs will not pay hospitals directly

Transaction 070.04 E&T Inpatient Service: Replaced by HIPAA 837I. May need to be used if some Inpatient Service reporting is not allowable under HIPAA.

Transaction 120.03 Outpatient Service: Phased out of service and replaced by HIPAA 837P. Data Element, Provider Type added to 120.03 and 837P transactions to support future actuarial studies. (For collection prior to March 2004 if HIPAA transactions are not used.)

Transaction 120.04: Created and used by MHD for applying HIPAA 837P transaction updates to the MHD-CIS databases.

These new transactions are compliant with HIPAA regulations. However Trading Partner Agreements between the RSNs and MHD may be used to limit the amount of data required or define technical interface specifications. Trading Partner Agreements are an appendix to this Data Dictionary and are subject to further ISDEC recommended refinement and revision on technical specifications necessary to meet RSN contract and HIPAA requirements.

Reporting Expectations

Reporting RSNs shall provide to the MHD all data described in the Data Dictionary and HIPAA Trading Partner Agreements for the Mental Health Division Consumer Information System (MHD-CIS), or any successor, incorporated herein by reference. Data shall be submitted within 60 days of the close of each calendar month. Upon the receipt of the data, the MHD will generate an error report. The error report will identify errors and warnings (missing or questionable data values). The reporting RSN shall remedy all data errors within 30 calendar days of the receipt of an error report. The MHD will also monitor the quality of the data throughout the fiscal year. All transactions will be final 180 days after the close of the submission month. Once transactions are final, the reporting RSN shall be liable for any costs associated with additional data processing.

For data related to the provision of inpatient services, the conditions in the above paragraph apply, except that this data is not final until 18 months after the close of the submission month.

Comply with HIPAA implementation requirements and standards (e.g., data collection, submission, privacy, and security).

Implement changes made to the MHD Data Dictionary as required. For an initial or subsequent versions of the Data Dictionary, the reporting RSN shall have 120 days from the date of publication to modify their data system to reflect the changes.

Ensure that the MHD receives requested information in a manner that will allow for a timely response to inquiries from CMS, the legislature, and other parties about system operations. Such data shall be provided in a time frame developed with the MHD at the time of the request and that takes into consideration the needs of the inquiring party.

Implementation Schedule

A phased implementation to meet HIPAA requirements was necessary depending on each RSN's ability to send the transaction and MHD's ability to receive and process it. MHD was able to accept these Data Dictionary transactions (except as noted) as of 10/16/2003.

The 120.03 Outpatient Service has been phased out but will remain active to report OP Services through March 2004 to allow for historical updates (services prior to HIPAA). A 120.04 version of the transaction (which is basically transparent to the RSNs) was created to allow MHD to extract data from the new HIPAA 837P. The 070.04 E&T Inpatient Transaction has been replaced by the HIPAA 837I but will remain in service in case there are Inpatient Facilities that can not report under HIPAA. MHD will extract data from the 837P and 837I HIPAA transactions and then use MHD-CIS transactions to maintain existing MHD SQL tables.

2005 Data Dictionary Changes

Transaction Change Summary

Transaction	ID	Comments
Cascade Delete	131.02	Minimum internal change – to reflect new and removed transactions. Since change is internal to MHD, RSNs may continue to use transaction id 131.01
Cascade Merge	130.02	No change
Case Manager	100.01	No change.
CDMHP Investigation	160.02	Added comment to Reporting Unit ID in transaction body to allow reporting of a non-certified detention facility and highlighted that the Reporting Unit ID field should indicate the facility of final placement of the consumer. It is not intended to be a record of consumer “movement” during the investigation and detention process. Added code “X” to legal reason for detention/commitment to indicate it was for “LRA for reasons other than above.”
Clear Month of Service	077.02	New: This version allows the removal of inpatient and/or outpatient services for a given month based on Provider ID as well as the RSN ID. RSNs may continue to use transaction id 077.01 at their option.
Community Hospital Authorization	076.01	Phased out of use for services authorized after October 16, 2003. RSNs have elected to not report Community Hospital Authorizations. Inpatient Encounter information is to be taken from MAA billing.
Community Hospital Payment Summary	075.01	Phased out of use after October 16, 2003. This transaction was for RSNs that paid Community Hospitals directly. This is no longer a business practice.
Consumer Demographics	020.05	No changes.
Consumer Periodics	035.05	No change Under HIPAA diagnosis definitions are modified
	035.06	Minimal change. Diagnosis is now optional in this transaction.
Consumer's Case Manager	011.01	No change.
E&T Inpatient Service	070.04	Replaced as appropriate by HIPAA Compliant 837I. – MHD extracts data from the 837I and executes this transaction to maintain current MHD SQL tables. Under HIPAA, diagnosis definitions are modified.
HIPAA 837 Institutional (E&T Inpatient Service)	837I	New HIPAA Standard Transaction replacing 070.04 Trading Partner Agreements to identify minimum data
HIPAA 837 Professional (Outpatient Service)	837P	New HIPAA Standard Transaction using new 120.04 Trading Partner Agreements to identify minimum data.
Header	000.01	No change.
ITA Hearing	162.02	Clarification of which RSN is responsible for reporting a

		hearing.
Outpatient Service	120.03	Phased out and replaced by HIPAA Compliant 837P. Data Element for Provider Type has been added pending use of 837P. Effective 1/1/2004 to 3/31/2004
Outpatient Service	120.04	NEW: (Not available to RSNs) MHD extracts data from the 837P and executes this transaction to maintain current MHD SQL tables.

MHD-CIS Data Dictionary Transactions

Status: Production	Version: 1	ID: 10018
---------------------------	-------------------	------------------

Transaction: Cascade Delete (Full/Partial)

Effective Date: 1/1/2000

Definition:

This transaction allows for the mass deletion of records for a given consumer. There are two types of cascade delete. The first will eliminate all information previously reported. This is referred to as a "Full Cascade Delete". The second type will delete that information which pertains to a specific agency. This is referred to as a "Partial Cascade Delete".

Full Cascade Delete: This type of delete will remove all information about a consumer. Once processed, the Consumer ID will be voided and not available for future processing. This type of delete requires the authorization of the RSN Administrator and the MHD Chief of Information Services. The RSN Administrator may delegate his/her authority to authorize Full Cascade Deletes to someone who maintains their information system. The authorization must be presented to the MHD Chief of Information Services. This authorization must contain the reason for the deletes, the number of deletes that will be processed, a timeframe when the delete transactions will be submitted, and a contact for coordinating the actual processing of these delete transactions. Upon approval by the MHD Chief of Information Services, the RSN will be contacted and a time frame will be coordinated for the actual processing of this transaction.

Partial Cascade Delete: This type of delete will not require prior authorization. It is limited to a single agency as identified by the Reporting Unit ID. Partial delete will delete a specific consumer's records for the following transactions: 1) Consumer's Case Manager 2) Inpatient Service and 3) Outpatient Service.

NOTE: There is no action code in this transaction!

Transaction ID: Value "131.02"

Primary Key: Reporting Unit ID (*RSN ID*)
Consumer ID (*The ID to be deleted*)

Body: Reporting Unit ID (*Leave blank or null for a Full Cascade Delete; enter the Agency ID for a Partial Cascade Delete*)

Status: Production	Version: 1.01	ID: 10015
---------------------------	----------------------	------------------

Transaction: Cascade Merge

Effective Date: 1/1/1998

Definition:

This transaction will void a Consumer ID and bar its use in the future. A Consumer ID is voided when the Contractor has established two different identifiers for a single person. The Contractor must identify the Consumer ID to be voided and also identify the Consumer ID to reference in its place.

NOTE: There is no action code in this transaction!

Transaction ID: Value "130.02"

Transaction: Case Manager

Effective Date: 1/1/2000

Definition:

This transaction allows the Regional Support Networks (RSN) to describe how an authorized person accessing the Case Manager Locator System (CMLS) can contact them by telephone when making an inquiry on a person who received a documented outpatient service within the most recent 12 months. The purpose is to provide a telephone number that is answered 24 hours a day, 7 days a week, by someone who can authenticate the caller and place them in contact with either a case manager or a clinician who has information about a specific consumer. The password is used by the RSN to authenticate the caller and is used by the RSN as a safeguard to prevent unauthorized release of information. This information is used to support the Case Manager Locator System (CMLS). This transaction may be linked to any number of consumers identified by an RSN. *(See Consumer Case Manager Transaction for more details on how to link this transaction to a specific consumer.)*

Minimum Requirements: Each RSN will maintain one Case Manager transaction for each agency providing outpatient services within the most recent 12 months. Each RSN will also maintain a default Case Manager Transaction to contact the RSN within any 24-hour day. The "Case Manager ID" for these default records will be "-AGENCY". The word agency must be in all upper case and be prefixed with a hyphen.

Transaction ID: Value "100.01"

Action Code: Value:
 "A" Add
 "C" Change
 "D" Delete

Primary Key: Reporting Unit ID *(Agency providing Case Management)*
 Case Manager ID *(Unique ID assigned by the Agency or RSN - see minimum requirements above for default value.)*

Body: Case Manager Phone *(Primary - enter 10 digits including Area Code then extension or other)*
 Case Manager Comment *(Primary)*
 Case Manager Phone *(Secondary)*
 Case Manager Comment *(Secondary)*
 Case Manager Password

Notes: Two sets of telephone numbers and comments are allowed. When the telephone numbers and comments are displayed on the Case Manager Locator System screen, the primary telephone number is aligned with the primary comment; the secondary telephone number is aligned with the secondary comment. The telephone numbers should include the

area code. If no area code is given, then someone using the Case Manager Locator System may not be able to contact the RSN if they trying to call from outside the RSN's area code.

Transaction: CDMHP Investigation

Effective Date: 1/1/2000

Definition:

A designated Community Mental Health Professional (CDMHP) is the only person who can perform an ITA investigation that results in a detention and revocation. A crisis worker who is not a CDMHP can initiate this investigation but in order for a detention to take place, it is mandated (RCW 71.05 for adults, RCW 71.34 for children 13 and over) that the CDMHP investigate and make a determination. Therefore, all investigations reported are derived from the investigation resulting from the findings of a CDMHP. Do not report investigative findings of the crisis worker unless the crisis worker is also a CDMHP.

The intent of this transaction is to record CDMHP investigations only. Activities performed by a CDMHP including crisis intervention, case management, or other activities, while important are not collected by this transaction. Each RSN determines which specific actions come under an investigation. The MHD recommended criteria for when a CDMHP activity becomes an 'investigation' is when the decision to investigate has been made and the CDMHP reads the person his/her rights. The trigger is reading the person his/her rights.

This transaction identifies all investigations by the CDMHP, even if the CDMHP is also classified as a crisis worker. An investigation can result in: a detention, which is 72 hours; a return to inpatient facility with a revocation of a court ordered less restrictive alternative (LRA) petition filed; a filing of a petition recommending an LRA extension; a referral for voluntary in-patient or outpatient mental health services, a referral to other community resources; or no action based on mental health needs.

Transaction: Consumer Demographics

Effective Date: 1/1/2002

Definition:

The information contained in this record is used to identify a person. Most information stored in the MHD-CIS is aggregated by identifying unique person records. This transaction allows for establishing in the MHD-CIS a unique identifier, the "Consumer ID", for a person by the Regional Support Network and to provide limited information that describes the person - such as name, birth date, SSN, etc. This transaction must be successfully processed before any other transaction referencing the "Consumer ID" will be accepted.

Transaction: Consumer's Case Manager

Effective Date: 1/1/2000

Definition:

Each consumer identified by a Regional Support Network (RSN) may be assigned to a "Case Manager" for use within the Case Manager Locator System (CMLS). This transaction associates the "Case Manager" with the "Consumer Demographic" transaction. Each consumer identified by a "Consumer Demographic" record may reference one and only one "Case Manager" record; however, each "Case Manager" record may be referenced by many "Consumer Demographic" records.

Note: If a consumer has on file, with MHD/CIS, any outpatient services within the past 12 months, then the demographic information will be made available through CMLS. If no Case Manager has been assigned to that consumer by this transaction, then CMLS will try to locate the default Case Manager for the agency that provided the most recent outpatient service. In the event there is no default Case Manager record documented for that agency, then CMLS will use the default Case Manager for the RSN.

REVOCAION - **Outpatient Treatment or Care - Conditional Release - Procedures for Revocation** - As provided in RCW 71.05.340(3) - " If the hospital or facility designated to provide outpatient care, the designated county mental health professional or the secretary determines that a conditionally released person is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the person's functioning has occurred, then, upon notification by the hospital or facility designated to provide outpatient care, or on his or her own motion, the designated county mental health professional or the secretary may order that the conditionally released person be apprehended and taken into custody and temporarily detained in an evaluation and treatment facility in or near the county in which he or she is receiving outpatient treatment until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the person should be returned to the hospital or facility from which he or she had been conditionally released. "

PETITION - **Petition for Initial Detention** - As provided in RCW 71.05.160 - " Any facility receiving a person pursuant to RCW 71.05.150 shall require a petition for initial detention stating the circumstances under which the person's condition was made known and stating that such officer or person has evidence, as a result of his personal observation or investigation, that the actions of the person for which application is made constitute a likelihood of serious harm to himself or others, or that he is gravely disabled, and stating the specific facts known to him as a result of his personal observation or investigation, upon which he bases the belief that such person should be detained for the purposes and under the authority of this chapter. "

Petition for Involuntary Treatment or Alternative Treatment - As provided in RCW 71.05.240 - " If a petition is filed for fourteen day involuntary treatment or ninety days of less restrictive alternative treatment, the court shall hold a probable cause hearing within seventy-two hours of the initial detention of such person as determined in RCW 71.05.180, as now or hereafter amended. "

Petition for Additional Confinement - As provided in RCW 71.05.290 - " At any time during a person's fourteen day intensive treatment period, the professional person in charge of a treatment facility or his professional designee or the designated county mental health professional may petition the superior court for an order requiring such person to undergo an additional period of treatment."

Petition for Release - As provided in RCW 71.05.480 - " Nothing contained in this chapter shall prohibit the patient from petitioning by writ of habeas corpus for release."

DETENTION - **Detention of Mentally Disordered Persons for Evaluation and Treatment** - As provided in RCW 71.05.150 - " When a mental health professional designated by the county receives information alleging that a person, as a result of a mental disorder, presents a likelihood of serious harm to others or himself, or is gravely disabled, such mental health professional, after investigation and evaluation of the specific facts alleged, and of the reliability and credibility of the person or persons, if any, providing information to initiate detention, may, if satisfied that the allegations are true and that the person will not voluntarily seek appropriate treatment, file a petition for initial detention. "

Detention Period for Evaluation and Treatment - As provided in RCW 71.05.180 - " If the evaluation and treatment facility admits the person, it may detain him for evaluation and treatment for a period not to exceed seventy-two hours from the time of acceptance as set forth in RCW 71.05.170. The computation of such seventy-two hour period shall exclude Saturday, Sundays, and holidays. "

COMMITMENT ORDER - **Definitions** - As provided in RCW 71.05.020(5) - "Judicial Commitment' means a commitment by a court pursuant to the provisions of this chapter. " (i.e., dangerous to self, others, or gravely disabled).

INVESTIGATION - (The only reference to "investigation" in RCW 71.05 is found in RCW71.05.150 - see **Detention** above).

Note: It is the responsibility of the RSN where the investigation occurred to ensure that if they report an investigation resulting in a detention, where a petition for a hearing also occurred for that consumer, that the associated ITA Hearing is also reported to the Mental Health Division. The ITA Hearing transaction should be submitted by the RSN in which the hearing occurred. This may be different than the RSN who reported the ITA Investigation.

Effective Date: 10/16/2003 through 3/31/2004 (Date of Service)

Phased out of service except for historical data corrections.

Used only to make corrections to data submitted prior to HIPAA implementation.

Definition:

This transaction documents outpatient services for a specific consumer. Note: The way MHD receives information on Per Diem services is through the RSN reporting system which is why they are reported by the Outpatient Service Transaction.

Action Code: Value:

"C" = Change
"D" = Delete

Primary Key:

Reporting Unit ID
(RSN/PHP ID).

Reporting Unit ID
(Subcontractor or agency that provided service)

Claim Submit Identifier

In anticipation of HIPAA this identifier became one of the primary keys. It is used to identify a specific contact and claim made by a subcontractor to a Regional Support Network. Either the RSN or contractor determines it at time of claim submittal. It is the responsibility of the RSN to maintain accurate records to track any claim submitted back to their electronic documents and paper medical records kept on the consumer identified within this transaction.

The HIPAA 837P Implementation Guide specifies characters beyond 20 are not required and aren't returned by an 837 receiving system. However with HIPAA allowing multiple services per claim this element alone would not uniquely identify a specific service encounter. As a result the MHD-CIS database key was expanded to 68 characters. Although only 20 characters are expected in this "historical" transaction, MHD's implementation of the Claim Submit Identifier is to accept up to 68 characters.

Transaction: Outpatient Service (120.04)

Effective Date: 3/31/2004

Definition:

HIPAA 837 Professional transactions are used to report outpatient encounters. In order to maintain existing SQL Tables, MHD extracts corresponding data from submitted HIPAA 837P Transactions to create this transaction as an interface to MHD-CIS. This transaction is in MHD-CIS native format similar to transaction 120.03 but it is not available to the RSNs. The only time RSNs will see the transaction is as part of Batch or Error reports from the MHD-CIS system to denote the transaction was derived from a HIPAA 837P See the following data field conversion/map for HIPAA usage. DD: Action Code

Effective Date: 1/1/2000

Definition:

Most batch transactions sent to the Mental Health Division/Consumer Information System contain a code, which indicates that a given action takes place. Actions allowed on a given transaction are defined below. For HIPAA 837 transactions this field is called a Claim Frequency Type Code. HIPAA Values 1, 7, or 8 are converted to A, C, D to match native transactions.

Note: The Action Code is used in most native transactions. The exceptions are listed below. These exceptions should not have a "Tab" inserted in the transaction to delineate the location of an Action Code.

1. Cascade Merge
2. Cascade Delete (Full/Partial)
3. Header

Maximum character length: 1

Code	Definition
A	Add a Record. If the record already exists as defined by the transaction's primary key, then replace the existing information with the new information contained in the body.
C	Change a Record. If the record does not already exist based on the transaction's primary key, then add a new record to the file.
D	Delete. If the record as identified by the transaction's primary key does not exist, then inform the Contractor that the MHD-CIS has no record to delete.

Status: Production	Version: 1.02	ID: 101039

DD: Admission Date

Effective Date: 1/1/2002

Definition:

Date a person was admitted to a facility. For HIPAA Definition see pages 167-170 of the 837 Institutional Guide 004010X096 For HIPAA reporting see Trading Partner Agreements

Maximum character length: 8

Format: CCYYMMDD

Where used: ET Inpatient Service (being phased out of service)
HIPAA 837I

Status: Production	Version: 1	ID: 200123
---------------------------	-------------------	-------------------

DD: Annual Gross Income

Effective Date: 1/1/2002

Definition:

Average annual family income. Family defined as members who normally share living environment who share income. Does not include income of group home members, other shelter members or inpatient roommates. Use the information available or best estimation in determining this element. If the person is on SSI, or is eligible for Washington State medical assistance, assume that the person is below the Federal Poverty level. For inpatients this represents the income of family of residence. For foster children report the child's annual income (benefit). This is to be reported annually or if changed. Change represents an amount that would change the designated poverty level of the consumer or change to the sliding fee scales used by RSNs.

Format: This is a money field allowing \$, commas and a period. Null values allowed if amount not reported.

Where used: Consumer Periodics

Status: Production	Version: 1.01	ID: 101003
---------------------------	----------------------	-------------------

DD: Batch Date

Effective Date: 1/1/1998

Definition:

Date a batch file of transactions was created by a submitting agency.

Maximum character length: 8

Format: CCYYMMDD

Where used: Header

Status: Production	Version: 1.01	ID: 101004
---------------------------	----------------------	-------------------

DD: Batch Number

Effective Date: 1/1/1998

Definition:

A sequential number assigned to the batch file by the submitting agency. When the batch number exceeds 99999 the submitting agency will reset the batch number to 00001.

Note: HIPAA transaction submission uses different batch numbering than standard transactions. On the HIPAA 837 the Transaction Batch Number is ISA13. Since the ISA13 field is nine digits, additional leading zeros should be entered. Only the last five digits entered in the ISA 13 will be used. For example, HIPAA Batch two would be entered as '000000002'

Maximum character length: 5 (Fill with leading zeros).

Where used: Header

DD: Case Manager Comment

Effective Date: 1/1/2000

Definition:

Free-form field for commenting on the phone numbers (e.g. daytime, nighttime, beeper, etc.) or for entering other case manager information.

This information is stored at the State for the purpose of supporting the Case Manager Locator System.

Maximum character length: 255 Variable Length

Note: Problems have been detected with posting long comments. At this time, please keep comments short while this problem is being resolved.

DD: Case Manager ID

Effective Date: 1/1/1998

Definition:

A code established by a Contractor to uniquely identify the case manager or case management team for a given consumer. A case management team may consist of one or more case management staff who shares responsibility for the care of a consumer. Case Manager ID can be established only by the Contractor through the RSN/PHP.

Where used: Case Manager
Consumer's Case Manager

Status: Production	Version: 1.01	ID: 101007
---------------------------	----------------------	-------------------

DD: Case Manager Password

Effective Date: 1/1/1998

Definition:

A keyword that identifies that the requester has authority to inquire about a consumer. The password is updated in accordance with the RSN's Policy on Security of Consumer Information. This password is used in the Case Manager Locator System (CMLS) on the MHD-CIS Intranet.

Maximum character length: 30 Variable Length

Where used: Case Manager

Status: Production	Version: 1.01	ID: 101008
---------------------------	----------------------	-------------------

DD: Case Manager Phone

Effective Date: 1/1/1998

Definition:

The phone number where the appointed case manager can be reached. It is important that the area code be included so that someone calling from outside a given RSN's area can reach the appropriate contact point. The recommended format is the full ten (10) digit phone number including the area code then any extension if known. This telephone number will be displayed in the Case Management Locator System exactly as entered.

Maximum character length: Minimum 10 - 20 Variable Length

DD: CGAS

Effective Date: 1/1/2002

Definition:

Global Assessment Scale for Children 6 to 17 Years of Age. Specified Time Period: 1 month
 Rate the subject's most impaired level of general functioning for the specified time period by selecting the lowest level which describes his/her functioning on a hypothetical continuum of health-illness. Use intermediary levels (e.g. 35, 58, 62). Rate actual functioning regardless of treatment or prognosis. Use code 000 for inadequate information

Maximum character length: 3 - (left zero fill)

The examples of behavior provided are only illustrative and are not required for a particular rating.

Code	Definition
91-100	Superior functioning in all areas (at home, at school, and with peers); involved in a wide range of activities and has many interests (e.g. has hobbies or participates in extracurricular activities or belongs to an organized group such as Scouts, etc): likeable, confident; "everyday" worries never get out of hand; doing well in school; no symptoms.

81-90	Good functioning in all areas; secure in family, school, and with peers; there may be transient difficulties and "everyday" worries that occasionally get out of hand (e.g. mild anxiety associated with an important exam, occasionally 'blowups" with siblings parents, or peers).
71-80	No more than slight impairment in functioning at home, at school; or with peers; some disturbance of behavior or emotional distress may be present in response to life stresses (e.g. parental separations, deaths, birth of a sib), but these are brief and interference with functioning is transient; such children are only minimally disturbing to others and are not considered deviant by those who know them.
61-70	Some difficulty in a single area, but generally functioning pretty well (e.g. sporadic or isolated antisocial acts, such as occasionally playing hooky or petty theft; consistent minor difficulties with school work; mood changes of brief duration; fears and anxieties which do not lead to gross avoidance behavior; self-doubts); has some meaningful interpersonal relationships; most people who do not know the child well would not consider him/her deviant but those who do know him/her well might express concern.
51-60	Variable functioning with sporadic difficulties or symptoms in several but not all-social areas; disturbance would be apparent to those who encounter the child in a dysfunctional setting or time but not to those who see the child in other settings.
41-50	Moderate degree of interference in functioning in most social areas or severe impairment of functioning in one area, such as might result from, for example, suicidal preoccupations and ruminations, school refusal and other forms of anxiety, obsessive rituals, major conversion symptoms, frequent anxiety attacks, poor or inappropriate social skills, frequent episodes of aggressive or other antisocial behavior with some preservation of meaningful social relationships.
31-40	Major impairment in functioning in several areas and unable to function in one of these areas, e.g. disturbed at home, at school, with peers or in society at large, e.g., persistent aggression without clear instigation; markedly withdrawn and isolated behavior due to either mood or thought disturbance, suicidal attempts with clear lethal intent: such children are likely to require special schooling and/or hospitalization or withdrawal from school (but this is not a sufficient criterion for inclusion in this category).
21-20	Unable to function in almost all areas, e.g., stays at home, in ward, or in bed all day without taking part in social activities or severe impairment in reality testing or serious impairment in communication (e.g., sometimes incoherent or inappropriate).
11-20	Needs considerable supervision to prevent hurting others or self (e.g. frequently violent, repeated suicide attempts) or to maintain personal hygiene or gross impairment in all forms of communication, e.g. severe abnormalities in verbal and gestured communication, marked social aloofness, stupor, etc.

01-10	Needs Constant supervision (24-hr care) due to severely aggressive or destructive behavior or gross impairment in reality testing, communication, cognition, affect, or personal hygiene.

DD: Claim Submit Identifier

Effective Date: 1/1/2002

Definition:

An identifier when used in combination with the Reporting Unit ID will be unique to a given outpatient/inpatient service transaction as stated in the transaction definition. It must uniquely identify an individual service within the RSN. For outpatient service transactions, the agency providing the service may create this unique identifier. For HIPAA Definition see the discussion below and pages 170-179 of the 837 Professional Guide 004010X098. For HIPAA reporting see Trading Partner Agreements

Maximum character length: 68.

When initially implemented for a non HIPAA Outpatient Service transaction on 1/1/2002 the maximum length was set as 20. This was based on HIPAA Implementation Guide suggestion and a one claim per encounter reporting expectation. The HIPAA Implementation Guides however allows multiple services per claim. Since multiple services are allowed per claim, the Claim Submit Identifier (CSI) alone on a HIPAA transaction is insufficient to uniquely identify the service encounter. On the HIPAA 837P, the Claim Submit Identifier (CSI) used at the 2300 CLM level is the CSI for the total claim. (See page 171 of the 837P Implementation Guide.) The Claim Submit Identifier for the service itself is the Reference Identification at the 2400 level, which is the Line Item Control Number. (See page 473 of the 837P Implementation Guide.) Merging of these two fields was necessary to produce a unique identifier.

DD: Consumer ID

Effective Date: 1/1/2002

Definition:

The identifier established by a Contractor, which uniquely identifies a consumer. Once a Consumer ID has been submitted to the MHD-CIS, it is never deleted. Use this ID on all transactions that require the identification of a consumer. On a HIPAA 837 this is referred to as SBR03 Reference Identification - Subscriber Primary Identifier

DD: CPT Code

Effective Date: 1/1/2002

Definition:

Current Procedural Terminology (CPT) codes found in the current CPT manual as published by the American Medical Association. For HIPAA Definition see pages 400-407 of the 837 Institutional Guide 004010X096 and pages 55-57 of the 837P Addenda 004010X098A1 For HIPAA reporting see Trading Partner Agreements. Known as Procedure Code under HIPAA. See also Health Care Financing Administration Common Procedure Coding System HCPCS Codes.

Historical Note: Prior to HIPAA, the National Association of State Mental Health Program Directors (NASMHPD) proposed a new set of CPT Codes for specific Mental Health Procedures. Pending assignment (or disapproval) of NASMHPD proposed CPT codes, the MHD Research unit provided a set of NASMHPD temporary codes be used for reporting under the Outpatient Service Transaction 120.03. These codes may not be used in HIPAA Transactions and will not be supported after the 120.03 Outpatient Service Transaction is phased out of service no later than March of 2004. These codes and rollups were published in the MHD-CIS 2002 Data Dictionary and are currently available from the MHD Research Unit under separate cover.

DD: Date of Birth

Effective Date: 1/1/1998

Definition:

The date a person was reported born.

Submit the date in the format CCYYMMDD. November 26, 1933 would be submitted on the batch transaction as 19331126.

Maximum character length: 8

Format: CCYYMMDD

Note: When a birth date is post (or greater than) a service date or the date is invalid, then all statistics related to these types of birth dates are usually attributed to the adult population.

DD: DC03

Effective Date: 1/1/2002

Definition:

Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood (DC: 0-3) is a product of eight years of work by ZERO TO THREE'S multidisciplinary Diagnostic Classification Task Force. The task was to develop the first comprehensive guide to assessment, diagnosis and treatment planning for mental health problems in children, from infants to toddlers. (See <http://www.zerotothree.org>)

Zero to 100 scale describes the child's level of functioning. Complements DSM-IV. Original Source: Zero to Three/ National Center for Clinical Infant Programs, 1994 Current Codes available from the Washington Institute for Mental Illness Research & Training (WIMIRT). Use code 000 for inadequate information.

Note: MHD will also use the DC03 for 4 and 5-year-old children. CGAS is used for 6-17 year olds

DD: Diagnosis

Effective Date: 1/1/2004

Definition:

Medical diagnosis in ICD-9CM format

In the Consumer Periodics Transaction, Diagnosis is optional. Up to four diagnosis (ICD9 codes) may be entered. It represents the predominant mental health diagnosis for the period, which is a different business use than a specific encounter diagnosis as reported on a HIPAA 837 transaction.

For HIPAA Definition see pages 265-270 of the 837 Professional Guide 004010X098 or pages 227-229 of the 837 Institutional Guide 004010X096 and page 19 of the 004010X096A1 Addenda. For HIPAA reporting see Trading Partner Agreements. **Maximum character length:** 3 to 6 (Or tabbed over if not reported)

Note: ICD-9CM may be coded as three digits with no period. Editing for valid codes will be on the first three digits only. Note page 265 of the Professional Guide under Note 2 reads: "Do not transmit the decimal point in the diagnosis codes. The decimal point is assumed."

DD: Education

Effective Date: 1/1/2002

Definition:

Describes if a consumer is in a formal educational program. This includes home schooling.

Maximum character length: 1

Code	Definition
1	Full time education: (1-12 grade: 20+ hours a week; kindergarten and greater than 12th grade: 12+ hours a week)
2	Part time education: (1-12: less than 20 hours a week, K and greater than 12th grade: less than 12 hours a week)

DD: Employment Status

Effective Date: 1/1/2002

Definition:

Employment status of the consumer during the Consumer Periodic time frame.

Guidelines:

This field is required to be reported as part of Consumer Periodics. This status may be recorded as "Unknown/Missing" if the service rendered is one-time, classified as Emergency/Crisis, or an assessment of the employment could not be determined during the time period reported. MHD does not expect employment records for children under 16. However, if reported code 8 or code 9 could be used.

Maximum character length: 1

Code	Definition
1	Employment Full-time: (35 hours or more paid employment per week).
3	Employment Part-time: (Less than 35 hours paid employment per week).
4	Supported Employment: (SE programs use a team approach for treatment, with employment specialists carrying out all vocational services from intake through follow-along. Job placements are: community-based (i.e., not sheltered workshops, not onsite at SE or other treatment agency offices), competitive (i.e., jobs are not exclusively reserved for SE clients, but open to public), in normalized settings, and utilize multiple employers. Frequently coordinated with Vocational Rehabilitation benefits.
5	Employed sheltered workshops, onsite at SE or other treatment agency offices.
6	Volunteer work: (1 or more hours per week volunteer work).
7	Retired.
8	Not Employed.
9	Unknown/Missing.

DD: EPSDT Indicator

Effective Date: 1/1/2002

Definition:

A code indicating a Yes or No condition or response. This code is used to flag a service or referral (into or out of an agency) that is related to an EPSDT (*Early and Periodic Screen for Diagnosis and Treatment of children*) screening; a "Y" value indicates EPSDT involvement; an "N" value indicates no EPSDT involvement. This code is required if Medicaid services are the result of an EPSDT screening referral for children (under 21 years of age). For HIPAA Definition see page 406 SV111 of the 837 Institutional Guide 004010X096. For HIPAA reporting see Trading Partner Agreements

---------------------------	----------------------	-------------------

DD: Ethnicity

Effective Date: 1/1/2002

Definition:

Taken from the Year 2000 census survey form as published by the Bureau of Census. Select one or more races to indicate what this person considers himself/herself to be.

If a person selects more than one code, enter each one in sequence. For example the selection of both White and Chinese would be coded as 010605. The first three digits (010) represents the first ethnicity, the second three digits (605) are the next ethnicity and so on. If the information is not available or unknown, then code as 999. Do not use code '999' with any other code combinations.

For reporting purposes, multi ethnicity coding will be combined into a single category. This is to prevent counting the same client multiple times.

Maximum character length: Variable Length of 3 or multiple of 3 characters

Code	Definition
010	White
021	American Indian or Alaska Native
031	Asian Indian
032	Native Hawaiian
033	Other Pacific Islander
034	Other Asian
040	Black, African American, or Negro
050	Some other race
605	Chinese
608	Filipino
611	Japanese
612	Korean
619	Vietnamese

660	Guamanian or Chamorro
655	Samoan

DD: Gender

Effective Date: 7/1/1998

Definition:

A code indicating either Male or Female. Indicate the gender of male or female.

Maximum character length: 1

Code	Definition
1	Female
2	Male
3	Unknown

Note: The value "3" for "Unknown" should be avoided. In statistical reports that look at gender as "Male" and "Female" exclusively, the "Unknown" *may be* included with the "Male" population.

Where used: Consumer Demographics

DD: Given Names

Effective Date: 1/1/1998

Definition:

The given/first/informal names of a consumer as provided by a Reporting Unit. (May include Title.)

In general, follow the rules of the appropriate culture when determining which name is the surname and which the given name. Consistency is important here, because the last name and given names are both used as elements to uniquely identify the person across the system.

The given name as recorded on significant documentation can be used to resolve contradictions. Use reasonable judgment to determine the best choice.

DD: Health Care Service Location

Effective Date: 10/17/2003

HIPAA Alias: Place of Service Code

Definition:

Codes used on professional claims/encounters to specify the entity where the service(s) were rendered. **NOTE:** MHD adopted an initial set of codes for use on services delivered prior to 10/17/03 as published in the 2003 Data Dictionary.

HIPAA 837P and Outpatient Service transactions with Date of Service after 10/17/03 should use code values as specified by reference to. <http://www.cms.hhs.gov/states/posdata.pdf> for current code values. Since Health Care Service Location Codes are subject to change, the codes available from the HHS web site will not be re-published in this Data Dictionary. MHD transaction edits will refer to code effective dates as compared to dates of service.

DD: Hearing Outcome

Effective Date: 1/1/2000

Definition:

Code representing the number of days committed as a result of a court order.

Note: No distinction is made between initial commitments/LRA and extensions. If the court orders another time period, round up to nearest time period.

Special Note for Codes 7 and 8: These are court-hearing outcomes based on petitions for revocation filed by the CDMHP. The CDMHP can return a person to inpatient status then file a petition for court determination. The court can revoke the LRA (Code 7) which substantiates the CDMHP's action and returns the person to inpatient for the remainder of their time. The court may also return the person to the community on a less restricted alternative (Code 8) with the same or amended conditions.

Maximum character length: 1

Code	Definition
0	Dismissed
1	14 Day Commitment
2	90 Day Commitment or extension
3	180 Day Commitment or extension
4	90 Day LRA or LRA extension
5	180 Day LRA or LRA extension

DD: Hispanic Origin

Effective Date: 1/1/1998

Definition:

A person of Mexican, Puerto Rican, Cuban, Central American or South American, or other Spanish origin or descent, regardless of race. The code is for primary self-reported Hispanic type. Roll-up code "000" may only be used with ITA and Crisis one-time services.

Use the code that describes the person's identification with Hispanic culture, origin or descent, in addition to the race/ethnicity recorded under Race/Ethnicity. If the RSN/PHP has conflicting views from their providers, the RSN/PHP will submit the most recent reported.

Every person should have an entry for both Ethnicity and Hispanic Origin codes.

Maximum character length: 3 - (left zero fill)

Code	Definition

DD: Impairment Kind

Effective Date: 1/1/2002

Definition:

The set of codes that identifies an individual's disability, in addition to the mental disorder for which they are being treated. **The disability should have a major impact on the person and their ability to function in the community and to procure food, clothing, and a safe place to live.** Multiple categories can be selected to describe the individual's impairment(s). Enter up to three applicable disability codes.

Maximum character length: 3 - Use up to 3 codes listed below (Variable Length).

Code	Definition
A	Development or intelligence; i.e., mental retardation or developmental disorder, organic brain syndrome.
C	Physical (unable to walk without assistance, unable to care for self, chronic illness).
D	Alcohol or drug dependence; i.e., dependence on alcohol or drugs which negatively affects the individual's ability to maintain a stable living arrangement, unable to remain in competitive employment, unable to provide adequate care for dependents, legal problems related to substance abuse.
E	Vision Impairments (does not include wearing glasses).
F	Hearing Impairments.
G	Other communication difficulties (speech and language, language comprehension. Does not include non-native speakers).

DD: Investigation Outcome

Effective Date: 1/1/2000

Definition:

A code indicating the outcome to a person investigated.

Maximum character length: 1

Code	Definition
1	Detention (72 hours as identified under the Involuntary Treatment Act, RCW 71.05).
2	Referred to voluntary Outpatient mental health services.
3	Referred to voluntary Inpatient mental health services.
4	Returned to Inpatient facility/filed revocation petition.
5	Filed petition-recommending LRA extension
6	Referred to non-mental health community resources.
9	Other.

Note: Code "1" if the person was informed of their rights and involuntarily detained. A person may have been informed of their rights and may have decided to be treated voluntarily. In this case, document this as code "2" or "3" for referral to a facility for either voluntary inpatient or outpatient mental health services.

DD: Investigation Start Time

Effective Date: 1/1/2000

Definition:

Time of day an investigation was started.

Maximum character length: 4

Format: HHMM

Note: This field is used to separate multiple investigations for the same person on the same day. It may be left blank if there is only one investigation, or the Contractor may specify any value up to 4 characters in length to uniquely identify multiple investigations on the same day. It is recommended that a time value be submitted using a 24-hour clock. If multiple investigations are reported for the same person on the same day and no start time is stated, then the new investigation will overwrite any old investigation without a start time.

DD: Person Identifier Code

Active Date: 1/1/2002

Definition:

A Personal Identifier Code (PIC) used by Division of Income Assistance to identify consumers eligible for state funded financial assistance as determined by the Division of Income Assistance. Also used by the Medical Assistance Administration to identify consumers eligible for Medical Assistance. There are two formats for this code. They are LLLLLLIYYMMDDT (First five characters of Last Name, First Initial, Middle Initial, Year, Month, Day of birth, Tie Breaker) or IIMMDDYLLLLLT (First Initial, Middle Initial, Month, Day, Year of Birth, First five characters of Last Name, Tie Breaker). Enter the PIC exactly as it is shown on the Medical ID Card.

Maximum character length: 14

Format: LLLLLLIYYMMDDT or IIMMDDYLLLLLT

The following are General Guidelines on how the PIC is formatted:

If the last name has five characters or more, enter the first five;

If the last name is hyphenated, enter the hyphen **IF** the hyphen comes before the first five characters or is the fifth character;

If the last name has less than five characters, space fill to make up five characters.

If there is no middle initial, enter as a hyphen (-).

If there is an apostrophe (') in the name, enter the apostrophe **IF** it is included on the Medical ID Card.

Examples: The following are examples to show how a PIC is formatted. **PIC codes are assigned. They should not be fabricated.** RSNs and providers should not attempt to create a PIC. For purposes of these examples, "T" is being used as the tie breaker character. The tie breaker character is a variable character assigned by the caseworker. Note that all the examples use the second format listed above, but the same principles apply to either format.

John E. Wellington, born November 8, 1963 is entered as JE110863WELLIT.

Jane A. Doe, (**only three characters in LAST NAME**), born October 23, 1940 is entered as JA102340DOE__T. The two underscore marks represent blank spaces. **Do NOT put in the underscore marks; these should be BLANK SPACES.**

Stephen Doe (**only three characters in last name; no middle initial**), born January 1, 1955, is entered as S-010155DOE__T. **Note that if there is no middle initial, it should be entered as a hyphen (-)**

Jerry A. Doe-Johnson (**three characters before the hyphenated last name**), born July 1, 1945, is entered as JA070145DOE-JT.

Judith Doe-Johnson (**no middle initial, three characters before the hyphenated last name**), born August 31, 1948, is entered as J-083148DOE-JT.

James E. Johnson-Doe, (**more than five characters before the hyphenated last name**) born April 3, 1967, is entered as JE040367JOHNST.

Jacob F. O'Brien (**apostrophe showing on the Medical ID Card**), born November 5, 1980, is entered as JF110580O'BRIT.

Jacob F. O'Brien (**NO apostrophe showing on the Medical ID Card**), born November 5, 1980, is entered as JF110580OBRIET.

Note: The PIC can change at any time.

DD: Priority Code

Effective Date: 1/1/2002

Definition:

Refer to RCW 71.24.025. An indicator of the relative seriousness duration and intensity of the presenting mental disorder of a particular person as well as distinguishing whether the consumer is a member of a targeted group as established by legislative mandate. Priority code is expected for crisis services. Providers may not have enough information about an individual to make a 'chronic' determination, but the provider should have enough information to make a seriously disturbed or seriously emotionally disturbed rating. However if a crisis worker can not determine a priority of chronic or serious, the priority code should be reported as acute. If a person is determined by the RSN at their sole discretion to be at risk, code them as 'A' acute, otherwise code 'O' for other. See WAC 388-0865-0150 for definitions of adult and child. Currently a child is one who has not reached his/her eighteenth birthday unless Medicaid eligible in which case a child is one who has not reached his/her twenty first birthday. Adults and Children conditional definitions are included below:

Maximum character length: 1

CODE	DEFINITION
A	Acutely Mentally Ill- a condition limited to a short-term severe crisis episode of a mental disorder, grave disability, or presenting a likelihood of serious harm. Not to be coded if the individual meets criteria for "chronic", "serious", or "seriously emotionally disturbed".

C	<p>Chronically Mentally Ill Adult- an adult who has a mental disorder and meets at least one of the following criteria:</p> <ul style="list-style-type: none"> -2 or more inpatient hospitalizations with the last 2 years, -continuous psychiatric hospitalization or residential treatment longer for more than 6 months out the preceding year, -because of mental disorder for more than 1 year, unable to engage in gainful activity. Gainful activity is based on Public Law related to SSI and SSDI regulations for earned income. For WA State this translates to a monetary amount. Refer to SSA Publication No. 05-11015 February 2001
D	<p>Seriously Disturbed person- a person who has a mental disorder that causes major impairment in several areas of daily living. If the person is a child, this is a sufficient criterion. If they are an adult they must meet this or at least one of the following criteria :</p> <ul style="list-style-type: none"> -is gravely disabled or presents a likelihood of serious harm to themselves or others, or to property; -has been on conditional release, or under a less restrictive alternative order at some time during the preceding two years; -has continuing suicidal preoccupation or attempts.
E	<p>Severely emotionally disturbed child- is a child who has a mental disorder which is clearly interfering with their functioning in family, school or with peers, and meets one of the following criteria:</p> <ul style="list-style-type: none"> -has undergone involuntary treatment or out of home placement related to a mental disorder within the last two years; -is currently served by juvenile justice, child-protection/welfare, special education, or developmental disabilities; -is at risk of escalating maladjustment due to: <ul style="list-style-type: none"> -chronic family dysfunction involving a mentally ill or inadequate caretaker; -changes in custodial adult; -going to, residing in, or returning from out of home placement; -subject to repeated physical abuse or neglect; -drug or alcohol abuse; -homelessness.
O	<p>Other- Does not meet the criteria for Acutely mentally ill, Chronically mentally ill, Seriously disturbed, or Severely Emotionally Disturbed.</p>

MHD-CIS HIPAA Transactions

Federal Standards – HIPAA Implementation Guides

The National Electronic Data Interchange (ANSI ASC X12N) Transaction Set Implementation Guides for HIPAA has complete specifications for the full HIPAA Transactions which are quite robust in content. The Transaction Guides and their Addendum are the official source for transaction specifications and data definitions. The CIS-MHD Data Dictionary will not attempt to duplicate the information in those guides, rather refer to appropriate sections by the page numbers.

These implementation guides provide standardized data requirements and content for all users of the HIPAA transactions. The purpose of the implementation guide is to expedite the goal of achieving a totally electronic data interchange health encounter/claims processing and payment environment. This implementation guides provides a definitive statement of what data translators must be able to handle. The implementation guides also specify limits and guidance to what a provider (submitter) can place in a transaction. The implementation guides are intended to be compliant with the data standards set out by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and its associated rules.

Trading Partner Agreements

It is appropriate and prudent for data exchange partners to have trading partner agreements that go with the standard Implementation Guides. This is because there are 2 levels of scrutiny that all electronic transactions must go through.

First is standards compliance. These requirements **MUST** be completely described in the Implementation Guides for the standards, and **NOT** modified by specific trading partners.

Second is the specific processing, or adjudication, of the transactions in each trading partner's individual system? Since this will vary from site to site (e.g., payer to payer), additional documentation which gives information regarding the processing, or adjudication, will prove helpful to each site's trading partners (e.g., providers), and will simplify implementation.

It is important that these trading partner agreements **NOT**:

- Modify the definition, condition, or use of a data element or segment in the standard Implementation Guide
- Add any additional data elements or segments to this Implementation Guide
- Utilize any code or data values, which are not valid in this Implementation Guide
- Change the meaning or intent of this Implementation Guide

These types of companion documents should exist solely for the purpose of clarification, and should not be required for acceptance of a transaction as valid.

MHD-CIS Native and HIPAA Transaction Submission

MHD will support a computer server site where RSN’s may submit each of the transactions described in this Data Dictionary. The site has a number of folders where transaction batches may be placed and error and batch reports may be picked up.

The Data Dictionary is definition rather than procedure oriented. Details on transaction submission requirements, file and folder naming conventions, encryption/security protocols, batch numbering conventions, and other process oriented information are contained in the Trading Partner Agreement Appendix.
